## Overview

| | |
|---|---|
| Statement period | 01/07/2026 - 06/07/2026 |
| Account currency | EUR |
| Debit turnover | €0.00 |
| Purchases | €0.00 |
| ATM Withdrawals | €0.00 |
| Credit turnover | €0.00 |
| Refunds | €0.00 |
| Payouts | €0.00 |

The T212 Card uses Just–in–Time funding, which means that cash will be transferred to the card only when required for transactions and when cash is received in the T212 Card it will be withdrawn immediately. This means that the opening and closing balance of the T212 Card will be 0.
The Overview only shows the Card transactions, excluding transfers from and to the T212 Invest account.

# Glossary

**Settlement currency**
The currency in which transactions are ultimately settled and reconciled in the cardholder's account. In the context of your card services with Just-in-Time funding, it's the currency of the investment account from which funds are drawn to settle the transactions.

**Debit turnover**
The sum of all debit transactions, including refunds and payouts, during the period.

**Credit turnover**
The sum of all credit transactions, including payments and ATM withdrawals, during the period.

**Statement period**
Refers to the specific timeframe chosen by the client, based on Coordinated Universal Time (UTC).

**Transaction currency**
The currency in which a transaction is initially processed. It's the currency used by the merchant or ATM during the transaction.

**Payout**
Payments received into the card from various sources, other than direct deposits into the investment account.

**Refund**
Money credited back to the card, typically as a reversal of a specific transaction (like returning purchased goods).
